Jason Hkayem

81-654045 | jasonhkayem1@gmail.com | https://jasonhkayem.github.io/jasonhkayem/

Education

Bachelor of Computer Science | Holy Spirit University of Kaslik | 2023 - Present
Baccalaureate degree in SG | College Saint-Joseph des Filles de la Charite | 2006-2021

Skills

- Languages: Arabic, English, French
- Programming: Python, Java, C++, C, JavaScript, HTML, CSS, PHP
- Frameworks and Libraries: Flask, Streamlit, NumPy, Pandas, scikit-learn, Serverless
- Data and Tools: Power BI, Microsoft Excel, MySQL, PostgreSQL, AWS, Docker, Git, n8n

Work Experience

Cloud AI/ML Engineer Intern | Zero&One | July 2025 – August 2025

- Designed and implemented RESTful APIs using Flask within a modular backend architecture.
- Built and deployed a serverless AWS application integrating ML services and scalable infrastructure.
- Contributed to AI-powered backend services involving embedding pipelines and RAG architectures.
- Collaborated on cloud deployment workflows and ML-backed services in a team environment.

Waiter | Anthony's Foodhub | May 2021 – Present

- Demonstrated reliability and time management while balancing work with full-time studies.
- Worked effectively in a fast-paced, team-oriented environment.

Projects

- Post-COVID Analytics: Analyzed a health and cognitive dataset using Python and SQL-based workflows, performing data cleaning, exploratory analysis, and building Power BI dashboards to visualize key insights and trends.
- CloudQ: RAG-based learning platform chatbot, implementing document embeddings and retrieval with AWS services to answer course content queries in real time.
- Backend Inventory API: Developed RESTful APIs with Flask and PostgreSQL to manage product data, implemented data storage and retrieval workflows, containerized services with Docker, and deployed on AWS ECS with load balancing.

Volunteering

Scouts du Liban | Member (2015–Present), Patrol Chief (2019–2021), Team Chief(2024–Present)
