Work Experience

July 2025 – August 2025

Cloud AI/ML Engineer Intern, Zero&One

- Completed an intensive AWS and cloud services training program.
- Built backend API endpoints with Flask.
- Developed and deployed a serverless AI/ML application leveraging AWS for backend infrastructure.
- Collaborated on a final project: a chatbot assisting users with course material and queries.

May 2021 – Present

Waiter, Anthony's Foodhub

- Welcomed customers, took orders, and managed the POS system.
- Served food and beverages while ensuring quality and customer satisfaction.
- Handled customer inquiries, special requests and complaints professionally.
- Processed cash transactions, card payments and managed bills accurately
- Worked collaboratively with team members.
- Took initiative in assisting and guiding new staff.

July 2019 – August 2019

Monitor, BeWell Summer Camp

- Supervised and assisted a group of 4-7 year olds in various sports and activities.
- Ensuring children's safety while fostering an engaging and safe environment.
- Encouraged teamwork, discipline and positive social interactions.
