Jason Hkayem

Zouk Mosbeh, Mount Lebanon
81-654045 | jasonhkayem1@gmail.com | https://jasonhkayem.github.io/jasonhkayem/

Education

Bachelor of Computer Science | Holy Spirit University of Kaslik | 2023 - Present
Baccalaureate degree in SG | College Saint-Joseph des Filles de la Charite | 2006-2021

Skills

- Languages: Arabic, English, French
- Programming: Python, Java, C++, C, JavaScript, HTML, CSS, PHP
- Frameworks and Libraries: Flask, Streamlit, NumPy, Pandas, scikit-learn, Serverless
- Data and Tools: Power BI, Microsoft Excel, MySQL, PostgreSQL, AWS, Docker, Git, n8n

Work Experience

Cloud AI/ML Engineer Intern | Zero&One | July 2025 – August 2025

- Designed and implemented RESTful APIs using Flask to expose data services within a modular backend architecture.
- Built and deployed a serverless data-driven application on AWS, integrating ML services and scalable backend infrastructure.
- Collaborated on developing an AI chatbot supporting users with course content queries.
- Worked with cloud deployment workflows and ML-backed services in a team-based environment.

Waiter | Anthony's Foodhub | May 2021 – Present

- Demonstrated reliability and time management while balancing work with full-time studies.
- Worked effectively in a fast-paced, team-oriented environment.

Projects

- Post-COVID Analytics: Analyzed a health and cognitive dataset using Python and SQL-based workflows, performing data cleaning, exploratory analysis, and building Power BI dashboards to visualize key insights and trends.
- CloudQ: Developed a cloud-based learning platform with a multi-user chatbot, integrating AWS services for content embeddings, translation, and real-time data retrieval.
- Backend Inventory API: Developed RESTful APIs with Flask and PostgreSQL to manage product data, implemented data storage and retrieval workflows, containerized services with Docker, and deployed on AWS ECS with load balancing.

Volunteering

Scouts du Liban | Member (2015–Present), Patrol Chief (2019–2021), Team Chief(2024–Present)
